ACRS/TFRS UPDATE

Presented by
MSgt Wooddall

ACRS/TFRS
TWO MAIN QUESTIONS

WHERE ARE WE NOW?

WHERE ARE WE GOING?

WHERE ARE WE NOW

- ACRS
  - Awaiting a milestone B decision before a Request for Proposal can be released
  - No funds. Funds will have to be redirected from some other project
  - Considered a priority along with four other projects

WHERE ARE WE NOW

- ACRS
  - MARCORSYSCOM initiated a Business Case Analysis (BCA) on the systems and processes that exist within the Manpower Management (MM) Division.
  - Used to determine if existing programs/systems can be combined
  - Results could benefit ACRS by freeing up funds

WHERE ARE WE NOW

- TFRS
  - Changes and improvements submitted
    - FITREP date gaps in TFRS
    - “Request for Info” dates on RELM
    - Archived RELM Message Text verbage
    - Roadshow Requests
    - HQMC Views

WHERE ARE WE GOING

- New FTAP Boatspace and STAP Reports with New Fields
  - Provide HQMC and CRS with more info
  - Provide for better decision making
  - Helps cut down on multiple RELM submissions on the same person
  - Saves time
